

Dynamics 365 Connector for AEB Carrier Connect and Compliance Check directly in Microsoft Dynamics 365

AUTOMATED PRINTING OF SHIPPING LABELS AND COMPLIANCE CHECK - DIRECTLY IN DYNAMICS 365

Does your company ship a large number of packages every day? Then a label matching the carrier must be printed for each one and the shipment data transmitted.

AEB Carrier Connect allows smooth shipping of thousands of packages. Print shipping labels for over 180 CEP services and carriers and transmit their respective shipping data.

[Print shipping labels and transmit delivery data:
Directly from your ERP system!](#)

With the Dynamics 365 Connector for AEB, you can seamlessly integrate Carrier Connect with Microsoft Dynamics 365 Finance & Supply Chain Management. Create shipments directly in Dynamics 365 and initiate the printing of labels.

Tracking information and other responses will be displayed in your ERP system in an orderly manner.

[Compliance Screening: Know whom you are dealing with.](#)

The **Dynamics 365 Connector for AEB** allows you to **audit your business partners** directly in Microsoft Dynamics 365 Finance & Supply Chain Management. The **check runs in the background**, not interrupting your work.

Every new lead, contact, or order gets checked against **sanctions lists, which are constantly updated**. Suspicious business transactions and contacts will be blocked. You also receive a detailed overview to decide whether to unblock them or not.

CARRIER CONNECT AND COMPLIANCE-CHECK DIRECTLY IN MICROSOFT DYNAMICS 365

Printing of correct labels and transmission of delivery data directly from your Microsoft ERP

Secure business transactions through continuous checks against sanctions lists

End-to-end shipping processes across system boundaries

HOW YOU BENEFIT

- > Connect 180+ CEP services and freight forwarders to your Dynamics 365
- > Create shipping labels and orders directly from your Microsoft ERP solution
- > Efficient shipping processes across system boundaries
- > Automated compliance check in the background with constantly updated prohibition/sanctions lists
- > Noncompliance triggers predefined processes, e.g., blocking of contacts and associated business transactions
- > Compliance officers receive information, eliminating the need for continuous monitoring of audit results

INWAY SYSTEMS GMBH

Since 2003, our experienced team of consultants works on the digital heart, and thus on the digitization of national and international companies.

Inway stands for experience and competence, fast implementation and security, reliability and innovation.
