

■ Your mission: Delivering excellence

Project Manager required for leading software company based in Leamington Spa, UK. For over 35 years, AEB have specialised in supplying leading edge software solutions in the areas of global trade, logistics and supply chain management. We are looking for an experienced and enthusiastic Project Manager to enhance our successful, and highly skilled, project team. AEB offers a comprehensive training package and ongoing professional development support. We take time to invest in our employees and value their ideas. In return for loyal service, we reward our employees appropriately. The Project Manager will report directly to the Senior Project Manager. Candidates must be prepared to travel to Germany to undertake initial training for a period of up to 3 weeks (if required). Previous candidates need not apply.

To support our continued growth, we are looking to strengthen our current team in Leamington Spa through the addition of a new ...
