

PRESS RELEASE

AEB offers free supply chain and global trade management webinar programme

- Solutions to increase efficiency, compliance and transparency throughout supply chains
- Webinars run from 11th February to 11th November 2015 - Registration now open

Leamington Spa, 6th February 2014 – AEB (International) Ltd, one of Europe's leading providers of global trade and supply chain management solutions, is inviting SCM and GTM professionals across all industries to participate in a series of free webinars aimed at improving operational and regulatory efficiency, running from February to November 2015. Participants can register without obligation at www.aeb.com/uk/media/online-demo-schedule.php.

In addition to personal online demonstrations upon request, AEB is now offering a series of free webinars that will help supply chain professionals to find out about the latest supply chain management and global trade solutions in the comfort of their own office. Participants only need a computer with Internet access, a phone, and about 60 minutes of time. Once they have registered on AEB's website, they will receive their personal log-in details from their AEB host prior to the webinar. The following webinars are now open for registration:

Compliance & Risk Management

- **11th February, 12th May and 16th September 2015, from 10am to 11am**

This webinar explains how ASSIST4 protects business transactions and relationships against risks. The presentation details various compliance and risk management process steps, including restricted-party screening and other mandatory export control checks.

Transport & Freight Management

- **10th March and 9th June 2015 from 10am to 11am**

This webinar provides an introduction to efficient preparation and processing of shipments and the smart management of freight costs - from carrier selection to carrier payment. The presentation guides through various sample steps of the logistics process.

Warehouse Management

- **14th April and 13th October 2015 from 10am to 11am**

This webinar gives an overview of the warehouse management possibilities offered by ASSIST4. As part of the presentation, AEB will explain various sample process steps including goods in and goods issue, picking strategies and workload overviews.

Visibility & Collaboration Platform

- **14th July and 11th November 2015 from 10am to 11am**

This webinar explains how to get a clear view of your supply chain with ASSIST4. The presentation details various sample process steps including monitoring of inventory and goods in transit, time slot management, business partner integration, and business intelligence tools.

Securing your Supply Chain

- **11th August 2015 from 10am to 11am**

This webinar introduces a combination of AEB solutions to secure global supply chains, mitigate risks and increase performance including automated product classification, monitoring and alerting, export control compliance and network-wide transparency.

Claire Umney, General Manager at AEB (International) Ltd, said: “While AEB experts are always on hand for individual appointments, we also wanted to offer insights and convenient online access to pre-scheduled webinars to a wider audience. We look forward to many sign-ups and feedback from the webinar participants to learn about markets needs and continuously improve our offering.”

Notes to Editors

About AEB GmbH (www.aeb-international.co.uk)

AEB is one of Europe's leading providers of supply chain logistics software and has been delivering solutions to customers for over thirty years. The company has over 5,000 customers worldwide and is headquartered in Stuttgart, Germany, supported by offices in the UK, Switzerland, Singapore and the US. AEB's core product - ASSIST4 - is the comprehensive solution suite for all logistics processes in global business. ASSIST4 offers a complete set of business services for end-to-end logistics, including international goods movements, making it possible to standardise and automate business processes in supply chain execution. ASSIST4 also creates transparency and provides a reliable basis for making the right decisions about the planning, monitoring, control and continual optimisation of supply networks, even beyond the boundaries of the business. The ASSIST4 suite offers full functionality via a wide range of modules including Visibility & Collaboration Platform, Order Management, Warehouse Management, Transport & Freight Management, Customs Management and Compliance & Risk Management.
