# AEB

**PRESS RELEASE**

## AEB launches free roadshow on SAP®-integrated solutions benefits

- **Three events, three locations, one goal: supply chain optimisation in SAP®**
- **October and November 2015 in Leamington Spa, Manchester, and London**

*Leamington Spa, 6th August 2015* **– It's nearly impossible to gain a competitive advantage merely by using a market leader for standard software, since SAP® is virtually an industry standard. Flexible, highly specialised solutions for global trade and logistics can deliver great benefits and added value: As a leading provider of global trade and supply chain management solutions, AEB offers a solution just like that: integrated in SAP®, AEB's ASSIST4 turns business processes into economic engines. Join AEB's upcoming roadshow to learn more: http://www.aeb.com/uk/events/sap-roadshow-registration.php**

The overwhelming majority of AEB's customers rely on the powerful ERP solutions of SAP®, and turn to ASSIST4 for customs clearance, purchasing and distribution logistics, warehouse and transport logistics, risk management, and greater transparency and performance in their business-to-business partnerships.

In an effort to support companies in optimising their supply chain and global trade processes integrated in their current system landscape, AEB is inviting companies working with SAP® ERP systems to join their upcoming, free roadshow events. Next to operational efficiency and lowering costs, business benefits further focus on supply chain security through global trade compliance.

The roadshow takes place across the country, with convenient locations in the Midlands, the North, and the South to choose from:

- Leamington Spa: Wednesday, 7th October 2015 from 10am to 4.30pm
- Manchester: Tuesday, 13th October 2015 from 10am to 4.30pm
- London: Wednesday, 11th November 2015 from 10am to 4.30pm

The roadshow agenda will focus on the following discussion topics at each event:

- **Carrier Integration:** Smooth communication with all transport service providers, including label printing, EDI messages, and track and trace functionality - integrated in SAP®.

- **Export Controls:** Screening export processes in order to avoid violations of embargoes and licensing requirements. Automatically, in the background, and right at the source: in SAP®.

- **Commodity code classification:** Simplified customs code assignments – automated and in line with nomenclature, coded documents, mapping directory, etc. directly in SAP®.

Please note that the programme is modular and participants are free to only join the sequences most relevant to them. Seating is limited to enable participants to actively engage and address their individual business concerns. Registration for all three roadshow events is now open. Find out more and register conveniently online, at no cost and without obligation: http://www.aeb.com/uk/events/sap-roadshow-registration.php.

**Notes to Editors**

**About AEB (International) Ltd (www.aeb.com/uk)**

AEB is one of Europe's leading providers of supply chain logistics software, consultancy, and services and has been delivering solutions to customers for over thirty five years. The company has over 5,000 customers worldwide, supported by offices in the UK, Germany, Singapore, Switzerland, Sweden, the Netherlands, Czech Republic, France, and the US. AEB's core product - ASSIST4 - is the comprehensive solution suite for all logistics processes in global business. ASSIST4 offers a complete set of business services for end-to-end logistics, including international goods movements, making it possible to standardise and automate business processes in supply chain execution. ASSIST4 also creates transparency and provides a reliable basis for making the right decisions about the planning, monitoring, control, and continual optimisation of supply networks - even beyond the boundaries of the business. The ASSIST4 suite offers full functionality via a wide range of modules including Visibility & Collaboration Platform, Order Management, Warehouse Management, Transport & Freight Management, Customs Management, and Compliance & Risk Management.
